

Please do not overturn the NJ Do Not Call law. It has allowed for many uninterrupted dinners in our household; unsolicited marketing calls have all but been eliminated. I grew up in a household where my parents paid extra to have an unlisted number - as struggling new parents, we are thankful that we don't have to pay for that extra expense. We are grateful that this law allows us to decide who we would like to contact for certain services, not the other way around. Thank you.
